In order to conduct the meetings effectively, the Chair has asked the Citizens Advisory Committee appointees to please sit at the front of the room. Alternates (who are not sitting in for the regular appointee) and others present are invited to sit in the rows behind the committee. Discussion during the meeting will be conducted by the appointees. Alternates and others are welcome to address the committee during the public comment period or if recognized by the Chair during the meeting. Speaker slips are available. It is important that CAC members comply with the Chair's Meeting Procedures and maintain decorum and politeness at all times. A quorum is a simple majority of current members. **The Chair cannot start the meeting until a quorum is present. PLEASE ARRIVE BY 10:25 A.M!** The CAC may take action on any item listed on the Consent or Discussion/Action agenda, but only when a quorum is present. If a quorum is temporarily lost during the meeting, no further discussion will take place until the quorum is regained. If the quorum is not regained, the meeting will be adjourned. **Please advise the Chair at the beginning of the meeting if you must leave before 12:15 p.m.**

NOTICE: Agenda packets are distributed by e-mail only. If you do not have an e-mail address, please contact the office at 858 674-2270 to make alternative arrangements.

SUBJECT: Watershed Urban Runoff Management Program (WURMP) - Presentation

Urban and stormwater runoff discharged into streams, bays, and oceans from municipal storm drain systems has been identified under local, regional, and national research programs as one of the principal causes of water quality problems in most urbanized regions. Runoff reaching our waterways has the potential to contain a host of pollutants like trash and debris, bacteria and viruses, oil and grease, sediments, nutrients, and metals. These pollutants can adversely affect receiving and coastal waters, associated biota, and public health.

The San Dieguito River Watershed Management Area (WMA) is within the boundaries of the Cities of San Diego, Del Mar, Escondido, Poway, Solana Beach and the County of San Diego. These local jurisdictions are committed to finding creative and effective ways to improve the water quality of the receiving waters of the San Dieguito River WMA, such as the San Dieguito Lagoon and Pacific Ocean, while also complying with the National Pollutant Discharge Elimination System Municipal Stormwater Permit (Order No. 2007-0001), hereafter referred to as the Municipal Permit.

While the Cities of Del Mar, Escondido, Poway, San Diego, Solana Beach and the County of San Diego ("San Dieguito River WMA Copermittees") are implementing broad water pollution prevention programs within their respective jurisdictions, the San Dieguito River Watershed Urban Runoff Management Program focuses specifically on water quality related issues within the San Dieguito River WMA that can be potentially attributed (wholly or partially) to discharges from the municipal separate storm sewer system (MS4) and may be addressed through a cross-jurisdictional approach.

The primary goal of this inter-jurisdictional effort is to positively affect the water resources of the San Dieguito River WMA while balancing economic, social and environmental constraints.

At today's meeting, Mikhail Ogawa will give a presentation about the San Dieguito WURMP process according to the following outline.
