Donate a Boardwalk Plank
Create a Lasting Legacy

Launched in 2007, the “Donate a Plank” campaign raises funds for the extension of the Coast to Crest Trail, the installation of interpretive displays, and the restoration of wetland habitat.

The Boardwalk provides trail users with scenic intimate views of the Lagoon. It was designed by KTU+A Landscape Architects, and the deck was installed by volunteers from the Rotary Club of Del Mar.

By donating $300 toward a Boardwalk plank, you can add an inscribed plaque with the name or text of your choice. Each plaque is numbered so that you can easily find and share it with your friends and family. It makes the perfect gift!

About the San Dieguito River Park

The San Dieguito River Park is the agency responsible for creating a natural open space park in the San Dieguito River Valley.

From the Coast to Crest Trail system that will someday link trails and paths from Del Mar to Volcan Mountain – over 70 miles – to the celebration and preservation of our local heritage and natural resources, the San Dieguito River Park is creating recreational and educational opportunities that interface gently with nature.
